Uniflight Completes New AS350 B2 for Unitrade

Monday, August 31, 2009 - Uniflight

Uniflight, LLC recently completed and delivered a brand new Eurocopter AS350B2 for Unitrade. The AS350B2 underwent Avionics Completion, Interior, Paint, and an Integrated Air Systems Air Conditioning System. Uniflight's unprecedented quality was applied to the installation of every item and an on-staff pilot test-flew the aircraft prior to delivery.

James Loftin, President of Uniflight said: "We are very pleased to have this opportunity to perform a completion for Unitrade. I am especially proud of the talent and expertise of our employees. Through their commitment and dedication we seek to earn our customers' continuing faith and confidence. Our location on Grand Prairie Municipal Airport has allowed us to develop a relationship with American Eurocopter that provides a high level of support for our common customer.

About Uniflight, LLC: Uniflight, LLC, FAA Repair Station UNFR783K, is a specialized helicopter overhaul and repair service center. The Company has earned its reputation over three decades through prompt and professional response in support of government and commercial helicopter operators. Uniflight is EASA certified and is also an authorized Garmin, Garmin, Technisonics, Sagem Avionics, Avidyne, Sandel, Becker Avionics, and Chelton Flight Systems dealer. Uniflight specializes in both civilian and military helicopter completions, retrofits, MRO, avionics systems integration, interiors, paint, component overhaul and engineering. For more information call 972-623-3444 or visit <http://www.uniflight.com/>.
