## Uniflight Receives QPS-110 Certification from Bell Helicopter for Aircraft Completions / Customizing

Thursday, May 28, 2009 - Uniflight, LLC

In addition to achieving Platinum Level Bell Customer Service Facility status, UNIFLIGHT, LLC has also been certified by Bell Helicopter to contract directly with the Fort Worth helicopter manufacturer for Bell owned and customer owned aircraft. The Bell Quality Procurement Specification (QPS-110) requirements are inclusive of the FAA requirements but also include elements of ISO 9000 and AS 9100 and assure that Bell's internal requirements as well as their customers' requirements are met. "Uniflight has a 20 year history as a Bell CSF and we value our relationship with Bell Helicopter. Our certification as a Bell supplier will only enhance this relationship and we look forward to helping Bell provide excellent customer service" said James Loftin, President and COO.

About Uniflight, LLC: Uniflight, LLC, FAA Repair Station UNFR783K, is a specialized helicopter overhaul and repair service center. The Company has earned its reputation over three decades through prompt and professional response in support government and commercial helicopter operators. Uniflight is EASA certified and is also an authorized Garmin, NA Technionics, and Chelton Flight Systems dealer. Uniflight specializes in both civilian and military helicopter completion retrofits, MRO, avionics systems integration, interiors, paint, component overhaul and engineering. For more information call 972-623-3444 or visit <http://www.uniflight.com/>.
